

SURYA PRAKASH SRIGADA

QA Engineer | Manual + Automation (Playwright)

+91 9100682587 · suryaprakashsrigada@gmail.com · Hyderabad, India

PROFESSIONAL SUMMARY

QA Engineer with 3 years of experience in manual and automation testing for iGaming, B2C, and e-commerce platforms. Proficient in Playwright (JavaScript/TypeScript) for end-to-end automation, with hands-on experience in functional, regression, smoke, and cross-browser testing. Skilled in API testing using Postman and experienced in validating CMS-driven content workflows across Strapi and WordPress. Strong collaborator in Agile/Scrum environments with a sharp eye for defect detection, test coverage improvement, and release quality assurance.

TECHNICAL SKILLS

Automation:	Playwright (JavaScript/TypeScript) - end-to-end test scripting
Manual Testing:	Functional, Regression, Smoke, Sanity, End-to-End, UAT, Cross-Browser
API Testing:	Postman and Swagger API - REST API validation, request/response, status codes
CMS Testing:	Strapi, WordPress - content publishing, metadata, config validation
Tools:	JIRA, Git, GitHub, VS Code, Agile/Scrum
Platforms:	Web, Mobile, Cross-Browser (Chrome, Firefox, Safari, Edge), Responsive

WORK EXPERIENCE

QA Engineer : Manual + Automation | Techmojo Solutions Pvt. Ltd. *October 2023 – Present*

Hyderabad, India

- Performed end-to-end manual testing for iGaming and B2C web platforms covering functional, regression, smoke, and sanity test cycles across multiple production releases.
- Wrote and maintained Playwright (JavaScript/TypeScript) automation scripts for critical user flows including navigation, form submissions, dynamic content validation, and multi-page interactions.
- Validated CMS-driven content on Strapi and WordPress platforms testing content publishing workflows, multilingual pages, metadata, promotional banners, and configuration changes.
- Performed API testing using Postman verified REST endpoints for correct status codes, response schemas, and data accuracy across backend services.
- Conducted cross-browser and responsive testing across Chrome, Firefox, Safari, and Edge on web and mobile viewports to ensure consistent behaviour.
- Identified, logged, and tracked defects in JIRA coordinating with developers for timely resolution and conducting retests before release sign-off.
- Collaborated with developers, product owners, and designers in Agile sprints participating in sprint planning, reviews, and retrospectives to maintain release quality.
- Contributed to test planning and test case creation from requirements, ensuring thorough coverage of functional and edge-case scenarios.

PROJECTS

pragmaticplay.com : Corporate Website

2023 – Present

Manual Testing · Playwright · REST API Testing · WordPress

- Performed functional and regression testing for the public-facing corporate website of Pragmatic Play, a global iGaming content provider covering product showcases, multilingual pages, and marketing sections.
- Validated WordPress CMS workflows including content publishing, theme configurations, multilingual page rendering, and dynamic marketing section updates.
- Tested REST API responses to verify accurate data rendering for game cards, promotional banners, and content blocks on the live site.
- Executed cross-browser compatibility testing across Chrome, Safari, Firefox, and Edge validating consistent behaviour and layout on both desktop and mobile viewports.
- Verified WCAG accessibility compliance testing keyboard navigation, focus states, and screen reader behaviour across all major site sections.

pragmaticplay.fun : Community Gaming Platform

2023 – Present

Manual Testing · Playwright · Strapi CMS · REST APIs

- Performed end-to-end manual testing for a free-to-play community gaming platform validating game discovery flows, slot catalog filtering (Flagship, Trending, Upcoming Games), and reward interactions.

- Validated Strapi CMS-driven content rendering testing game metadata, latest release updates, and promotional content for accuracy and consistency.
- Wrote Playwright automation scripts for tag-based filtering, page navigation, and customer interaction flows, enabling repeatable regression coverage.
- Conducted responsive and cross-browser testing across mobile, tablet, and desktop viewports to ensure a seamless user experience.

arrise.com : Corporate Website

2023 – Present

Manual Testing · Playwright · Strapi CMS · REST APIs

- Executed functional and regression testing for the ARRISE corporate website validating careers portal listings, location pages, product showcases, and brand sections.
- Tested Strapi CMS workflows for dynamic job listings, company news, and office location pages verifying content accuracy and correct rendering on the UI.
- Validated REST API responses for CMS driven data ensuring real-time accuracy between the backend and live site content.
- Performed cross-browser and responsive testing across all major browsers and device sizes, logging layout and functional defects in JIRA.

klira.skin : Dermatology & Skincare E-Commerce Platform

2025 – Present

Manual Testing · Playwright · Strapi CMS · REST APIs

- Performed end-to-end manual testing for a dermatology e-commerce platform covering the multi-step Skin Test quiz flow, product pages, shop, gift card, and checkout journeys.
- Validated dynamic question rendering, state transitions, and personalised recommendation outputs within the interactive Skin Test flow.
- Tested REST API responses for real-time product data, user skin profile results, and personalised formulation recommendations verifying accuracy between API and UI.
- Wrote Playwright automation scripts for the checkout and quiz flows, covering form validation, error states, and success scenarios.
- Verified WCAG accessibility compliance and conducted responsive testing across mobile and desktop viewports for all customer-facing pages.

EDUCATION

Bachelor of Computer Applications

March 2018 – December 2021

Andhra University, Visakhapatnam, Andhra Pradesh
